

USSEC holds the Training Course in New Advances in Feed Manufacturing for Eastern European Soy Customers

Romanian and Polish participants at the USSEC Feed Manufacturing Training at the University Politecnica in Madrid, Spain: May 4th – 8th, 2015

From left to right:

William Navarez (visiting professor, UPM), Jaroslaw Niescier (AgriPlus Smithfield Poland), Constantin Bompa (Nutrimold – Trouw Romania), Juan Acedo Rico (Feed Technologist, Spain), Prof. Gonzalo Mateos (USSEC Spain), Sergiu Liubimirescu (Smithfield Romania), Iosif Pazuric (Nutrientul Palota), Eda Kizilcelik (Combial Feed Mill), Sorin Cobuz (Suinprod Feed Mill), Aurelian Zarnescu (Banvit Romania).

**Practical Panel Discussion at the University Politecnica in Madrid, Spain:
Dr. Paloma Rebollar and Dr. Gonzalo Mateos interacting with the Romanian and Polish attendees in recognizing soybean meal differentiation based on origin and processing conditions**

Jaroslav Niescier (AgriPlus Smithfield Poland) Juan Acedo Rico (Feed Technologist, Spain) discussing ingredients quality control during the on-site training session at the Proinserga Feed Mill

USSEC Consultant Juan Acedo Rico and Mr. Ventura Caro (Laboratory manager at Veravic Feed Mill) sharing with the Eastern European colleagues the feed quality monitoring programs implemented by the Spanish Feed Industry

USSEC Consultant Dr. Gonzalo Mateos discussed soybean meal particle size during the on-site feed mill training (at VeraVic Feed Mill) with Constantin Bompa (Nutrimold – Trouw Romania)

Mr. Santos Carbayo (Director of Veravic Feed Mill) welcomed the group of training participants at one of the most newest and modern feed mills in Spain

Mr. Antonio Holombrada (Production Manager of Proinserga Feed Mill) talked to the participants about practical aspects of milling and pelleting of animal feeds

Jaroslav Niescier (Feed Group Managing Director at AgriPlus Smithfield Poland) discussing with Santos Carbayo (Director of Veravic Feed Mill) and Juan Acedo Rico (USSEC Feed Technology Consultant) about the key factors impacting feed production efficiency

USSEC Consultant Juan Acedo Rico stressing the importance of particle size in producing high quality pelleted feeds during the on-site training at Veravic Feed Mill

Dr. Mario Garcia (owner of 3F Company in Avila, Spain) introduced the participants the latest trends and developments in liquid feed additives production and usage by the EU feed and livestock industries

Mr. Julio's Cepeda sharing with the training participants (during the visit at the Perdiguera Beef Cattle Farm) the importance of good quality protein ingredients in beef feeding.
