RFP TITLE: TECHNICAL REPRESENTATIVE OF HUMAN UTILIZATION- SOUTH ASIA

RFP CONTACT:

Name: Kevin Roepke

Email: kroepke@ussec.org

INTRODUCTION:

United States Soybean Export Council (USSEC) requests proposals to assist in the continued development and implementation of a Technical Representative of Human Utilization for the South Asia Region.

Through a global network of international offices and strong support in the U.S., USSEC helps build a preference for U.S. soybeans and soybean products, advocate for the use of soy in feed, aquaculture and human consumption, promote the benefits of soy use through education and connect industry leaders through a robust membership program.

PURPOSE OF RFP:

USSEC's standard practice is to RFP every 3 years. This helps to insure we are staying abreast of current technology and fair market value. We encourage all that are interested to apply, including current contractors.

The purpose of this RFP is to seek proposals for a Technical Representative of Human Utilization in the South Asia region. The Technical Representative of Human Utilization will promote U.S. Soy and engage key customers in the region. The contractor will also attend/host conferences, meetings, etc. as requested with approval by the Regional Director

BACKGROUND & PURPOSE OF PROJECT:

The South Asia region (Bangladesh, Pakistan, Sri Lanka, India, and Nepal) includes some of the most dynamic and exciting economies in the world. Export growth into the region is impressive and expected to continue over time.

In FY17, USSEC targeted four main market sectors in the South Asia region including animal (mainly poultry) utilization, aquaculture utilization, opportunities for soy protein in human food applications, as well as efforts targeting the soy supply chain. The core strategy focuses on educating the target audiences about the specific advantages of U.S. soy in various applications,

increasing their realization of those advantages, and establishing purchase preferences because of those advantages.

A critical approach to communicating the U.S. Soy Advantage is having an on the ground presence that can interface directly with key customers. USSEC will maintain the U.S. soybean industry's marketing and trade servicing capabilities in South Asia region while providing trade services, technical services and marketing support to importers, end users and soy industry organizations.

To that end, USSEC is seeking technical expertise, on a retainer basis, to provide the day-to-day subject matter knowledge in-house and readily available.

TARGET AUDIENCE:

South Asia soy industry customers, industry associations, importers, end users, influencers, doctors and all relevant stakeholders within the human health space, pertaining to soy foods

SCOPE (SERVICES) OF WORK:

Under this contract, the Contractor shall promote the use and awareness of U.S. soybeans and soybean products through the following services:

SUPPLEMENTAL INFORMATION AND BACKGROUND

BUILDING A PREFERENCE FOR U.S. SOY

USSEC's strategy can be found here: <http://ussec.org/about-ussec/vision-mission/>

USB's Long Range Strategic Plan can be found here: <http://unitedsoybean.org/about-usb/strategic-planning/>

We are a dynamic partnership of key stakeholders representing soybean producers, commodity shippers, merchandisers, allied agribusiness and agricultural organizations.

Through a global network of international offices and strong support in the U.S., we help build a preference for U.S. soybeans and soybean products, advocate for the use of soy in feed, aquaculture and human consumption, promote the benefits of soy use through education and connect industry leaders through a robust membership program.

Our 15-member board of directors is comprised of four members from the American Soybean Association (ASA), four members from the United Soybean Board (USB), and seven members representing trade, allied industry, and state organizations.

New board members are seated annually. We are receiving funding from a variety of sources including soy producer checkoff dollars invested by the USB and various state soybean councils; cooperating industry; and the American Soybean Association's investment of cost-share funding provided by the United States Department of Agriculture's (USDA) Foreign Agriculture Service.

The United Soybean Board, created by the 1990 Farm Bill to manage and direct the National Soybean Checkoff, is dedicated to marketing and research for the soybean industry. USB is comprised of 73 volunteer soybean farmers representing the interests of fellow growers nationwide. Each board member is nominated by Qualified State Soybean Boards (QSSBs) and appointed by the U.S. Secretary of Agriculture.

Because of the limitations on administrative and salary costs established in the Act, USB outsources the majority of its program management responsibilities to USB's three primary contractors:

- SmithBucklin-St. Louis for domestic marketing, new uses, production research and Board initiative activities;
- Osborn & Barr Communications for communications/public relations activities and;
- United States Soybean Export Council (USSEC) for international marketing and global opportunities activities.

As one of these three primary contractors USSEC may also undertake initiative activities on behalf of USB. USB considers primary contractor staff (approximately 60 people) as core USB staff. These three primary contractors use a number of subcontractors and, together, these entities carry out approximately 450 projects each year for USB. USB also manages approximately 10 subcontractors.
